POWAKADDY FREEWAY

Freeway £369, Digital+ £429, Sport £479, www.powakaddy.com

Golfers in the market for a new power trolley can take their pick from three new models in PowaKaddy's line up for 2013. The entry-level Freeway has been given a sporty makeover, with a new oversized central tube and a soft-touch double handle, a new power off/on light and a handy pause/resume button, while the Freeway Digital+ includes all of the functions of the standard model with the addition of a nine-speed control roller and an LED screen with a digital distance function. The range-topping Freeway Sport trolley adds a battery life monitor and digital clock to the range of functionality, and a separate Digital Distance Function button. All are available in black or white, with the Sport also available in graphite, with a choice of lead or more expensive (and longer lasting) lithium batteries.
