

A robust, streamlined and stylish PowaFrame adds to the stability and is easier than ever to fold away.

A new ambidextrous control with soft touch grip, together with the universal GPS and umbrella holders, add comfort.

A unique Plug 'n' Play battery system means that Lithium and Lead Acid batteries slot effortlessly into the battery tray.

PowaKaddy FW7 electric trolley

► PowaKaddy's 2014 range has some clever, new design and functional features which may well be the envy of your playing partners! The addition of a unique Plug 'n' Play Battery system means you no longer have to be bothered by fiddly connectors. Instead, the cassette system enables batteries to slot effortlessly into the

battery tray. There is also a lightweight PowaFrame, which packs away incredibly easily. In addition, it comes fully loaded with an array of the latest user-friendly digital technology, clearly displayed on a full colour LCD widescreen.

A simple-to-use soft touch T-Bar grip with function buttons, digital power gauge

and battery fuel indicator allows users to quickly select trolley speeds as well as keep an eye on the machine's power and capacity. In addition, a 'competition' mode easily removes features banned in competition.

Price: from £445 (standard battery)
