TAKE THE FREEWAY

New FW range has style and the latest technologies

The popular Powakaddy Freeway range has been completely redesigned with three new models for 2016 – headlined by the FW7s complete with a built-in calorie counter.

The new FW3 and FW5 both boast new sporty, low-profile wheels while the FW7s (replacing the FW7) incorporates a brand new 3.5in widescreen full-colour display that's the same size as a smartphone screen.

Each model can be powered by the latest re-engineered lithium-ion battery technology and Powakaddy's Plug 'n' Play system which means you don't have to connect wires when slotting into the battery tray.

FW7s (Silver)

£429.99 (standard battery);
£459.99 (Extended Range Battery);
